A LITTLE SUPPORT. A LOT OF POSSIBILITY.

Every lesson deserves *a chance.*

Tech has its moments. So do you.
Find a safe next step, keep the learning going, and leave the repair to the right hands.

LET'S TAKE IT ONE STEP AT A TIME

What is getting in the way?

Three common hiccups.
One calmer place to start.

Projector trouble
A blank screen or “no signal”

Computer will not start
No response, no lesson plan?

Internet is unavailable
Keep going, connection or not

A LITTLE LESS TO KEEP IN YOUR HEAD

Your classroom, in focus.

Projector · no signal · YOUR CASE WORKSPACE

Science projector

Created 12 Nov 2026, 22:28 · Updated 12 Nov 2026, 22:28

Symptom	No signal visible on the screen
Lesson impact	The water-cycle slides are unavailable
Priority	High
Context	<img src=x onerror=alert(1)> generic context

Observation, not a repair guide.

Follow your school's policy and qualified staff. Leave equipment, wiring and internal work to them. These fixed demo checks are not a diagnosis.

FIRST-LINE CHECKS COMPLETE

Leave the next step to your technician.

This limited guide ends here. Print the observations for IT and choose a device-free lesson while qualified staff handle the equipment.

1. **Start with safety** · No concern observed
   12 Nov 2026, 22:28
2. **Read the selected source** · Still not working
   12 Nov 2026, 22:28
3. **Look at the presentation mode** · Still not working
   12 Nov 2026, 22:28

BUILT-IN · NO AI

The water cycle — think, pair, share

15 minutes · Primary · Works aloud

1. **Recall · 3 min**

recall one idea or question about The water cycle. Thinking aloud is enough; paper is optional.

2. **Pair · 7 min**

Skip to dashboard

Backup activity saved

In pairs, take turns explaining the idea. Each partner adds an example and asks one question. Offer a solo reflection option where needed.

3. **Share · 5 min**
   Invite a few learners to share one insight or open question. Close by connecting the ideas to the lesson goal.

Materials noted by you: Paper and pencils. Optional, not required by the activity.

Choose an appropriate, safe teaching space under your school's procedure.
